

ANNA KHMILEVSKAIA

Fashion Designer

<https://annakhmlevskaia.com> Anna.khmilevskaia@outlook.com Milan, Italy

PROFILE:

I am a fashion designer with a strong focus on concept-driven work and construction. My projects move between womenswear and menswear, and I work across fabric manipulation, knitwear, and tailoring. I'm drawn to research that goes beyond visual reference: cultural identity, material memory, craft traditions and to keep that thinking visible in the work itself. Looking for a role where I can contribute both creatively and technically.
